Company Snapshot
Established: 2016
EIN/TIN: 81-3800107
DUNS Num: 071960999

Core Capabilities

End-User Clinical & Administrative Devices

- Procurement and deployment of HIPAA-compliant desktop PCs, laptops, tablets, and mobile devices for clinical and administrative use
- Configuration, imaging, and software deployment tailored for Electronic Medical Records (EMR) systems and practice management platforms
- Support for mobile carts and point-of-care (POC) workstations

Secure Networking Solutions for Healthcare Environments

- Network optimization to support bandwidth-heavy applications such as radiology, EHR systems, and virtual care platforms
- Deployment of zero-trust architectures and segmentation for patient data protection

Cybersecurity Services:

- Threat detection and prevention solutions designed for sensitive health data
- Data protection solutions including secure file transfer and email encryption
- Alignment with HIPAA, HITECH, and NIST cybersecurity frameworks

Infection Control & Hygienic Computing

- Deployment of washable, waterproof keyboards, mice, and devices from partners like Seal Shield
- UV-C sanitization solutions for shared mobile devices, tablets, and workstations
- Integration of infection-control peripherals into nurse stations, labs, and high-touch environments

Hyperconverged Infrastructure (HCI) & Healthcare Data Centers

- Implementation of HCI to consolidate compute, storage, and networking for faster EMR access and clinical app performance
- Virtualization solutions for secure hosting of medical applications and imaging systems
- Support for hybrid cloud environments aligned with healthcare compliance standards

Why Mvation?

- ▷ **Access to over 1,000 OEM Partners & 1M+ products**
- ▷ Specialized solutions for **clinical, administrative,** and **telehealth** environments.
- ▷ Deep experience in **public sector procurement** including GSA, 2GIT, and BPA Contracts.
- ▷ Fast lead times and responsive customer service.
- ▷ Expertise in **HIPAA, HITECH,** and **TAA compliance**
- ▷ Partnerships with leading healthcare IT brands like Seal Shield, Team-Hat, Microsoft, HP, and more.
- ▷ Flexible purchasing options and multi-vendor bundling.
- ▷ Dedicated support for system upgrades and refresh cycles.
