

# Why Dell's Education Portfolio and Windows 11 Are Perfect for K-12

## The Need for Modern Education Solutions

The way we approach learning has changed, but the need for intuitive, collaborative tools that inspire students and educators has not. Both need digital, blended solutions that enable equitable education and empower students from classroom to career.

69%

of students prefer fully online, hybrid or blended learning options.

SOURCE

70%

of educators are concerned about their ability to engage students and help them succeed with high-value learning experiences.

SOURCE

## Educators

*Meaningful learning for every child, in any location*

- ✓ Personalize learning for students of all abilities and learning styles
- ✓ Enable learning and engagement from almost anywhere with technology that's simple to deploy, manage and secure
- ✓ Maximize class time for instruction and minimize troubleshooting
- ✓ Promote student emotional well-being
- ✓ Engage learners and prepare them for the future with emerging technologies such as generative AI

## Students

*Limitless opportunity to meet learners where they are*

- ✓ Use technologies that are inspiring and forward-thinking to prepare them for whatever comes next
- ✓ Avoid distracting, unreliable technology and focus on learning
- ✓ Communicate and collaborate with classmates at school or online
- ✓ Be assured that interactions and personal data are protected
- ✓ Get access to learning opportunities inclusive of ability, income, language and location

## IT Staff

*Balance productivity, security and cost-effectiveness*

- ✓ Safeguard student and teacher data and identities
- ✓ Detect and block malware, and protect students from unsafe web content and downloads
- ✓ Deploy and manage on campus and remote devices from anywhere
- ✓ Confidently recommend high-performance, cloud-first devices that are affordable and designed with education in mind:
  - 10 hours of battery life
  - Powered by Intel processors
  - Includes familiar learning apps

# Dell's Education Portfolio and Windows 11 –Crafted With the Needs of Students and Educators in Mind

## Meaningful learning for every child

Empower students to access **learning materials** independently, regardless of their ability, income, language, location, and identity on the best-in-class, purpose-built **Dell Latitude 3000 Series**—designed to withstand spills and tumbles.

## Simple and streamlined education

Provide optimized performance for students of all abilities with the high-quality learning tools in Windows 11—reimagined for a new era of digital learning all in a secure and trusted environment.

## Experiences designed around the individual

Give students **greater accessibility** and let them learn their way **on a Latitude** that delivers best-in-class performance, audio, and video.

## School days spent focusing on what matters

Help learners keep clear of clutter and distractions by activating **ease of access settings** with the help of **thoughtful accessories** that deliver comfortable productivity.

## An environment that balances productivity and security

Set students up to work more **productively** and **independently** than ever before with quick, one-click access to mic controls and sharing in Teams—protected by the **most secure Windows yet** on devices powered by **Intel processors**.

## Lessons that never have to be put on hold—inside or outside the classroom

Let them work or study all day on **Dell Latitude laptops** that offer at least **10 hours of battery life** while using **familiar learning apps** like Microsoft Word, Excel, OneNote, and Teams.

## Get AI Ready

Build AI literacy to encourage responsible usage, advance learning and give students the skills they'll need in the workforce of the future.

## Transforming K-12 education for the digital era
